444K LOADER
92 kW (124 net hp)
Got a material-handling app that demands extra agility and ability? Put a John Deere 444K Loader to work on that. Built on the proven platform of its predecessor, this enhanced K-Series utility version is loaded with even more customer-inspired productivity- and uptime-increasing features. Its EPA Final Tier 4 (FT4)/EU Stage IV PowerTech™ diesel engine enables it to work, everywhere there’s work — without compromising power, reliability, or ease of operation. Daily checks and maintenance access are even easier. Plus, you’ll continue to profit from unique advantages such as our one-of-a-kind Quad-Cool™ design for best-in-class service ease. And a solid-state electrical system with sealed-switch module for unsurpassed reliability and fingertip control of numerous machine functions. Get more in our 444K.

Long days made shorter.

Time flies when you’re getting things done. And what operator wouldn’t be more productive in the high-back air-ride seat of a 444K Loader? Up-front, an enhanced multifunction monitor displays operating, diagnostic, and maintenance info on a color LCD screen with easy-on-the-eyes clarity. Generous tinted glass and a low-profile console allow a commanding view of the work ahead. The spacious and quiet cab boasts plenty of legroom and fatigue-beating ergonomics, including convenience features such as seat-mounted loader controls. And sealed-switch module (SSM) with keyless start and effortless push-button operation of numerous machine functions. For more productivity without extra effort.

Adjustable automotive-style louvers provide effective airflow to keep the glass clear and the pressurized cab comfortable.

Entertainment/information choices include an AM/FM/WB/XM Satellite Radio™ with remote auxiliary and USB ports and Bluetooth® connectivity.

Keyless-start security system requires a numeric pass code (when activated). Helps prevent unauthorized machine operation.

Available premium heated air-ride armchair seat adjusts multiple ways for extra comfort and cushioning.

Conveniently positioned brake and throttle pedals allow plenty of legroom for easy entrance and exit.

Multi-language color LCD monitor provides push-button access to a wealth of machine info and control:

A. Vital and general operating info, including transmission mode, gear, engine rpm, ground speed, fuel and diesel exhaust fluid (DEF) levels, and fluid temps.

B. Enhanced onboard diagnostics with speed, pressure, and temperature readings and real-time switch status.

C. Customized machine settings such as Quick Shift, Auto-to-1st, and optional Ride Control let you match operating characteristics to specific jobs and conditions.

D. Optional embedded payload scale weighs each bucket load, helping fill trucks to the max.

1. Cooler compartment and beverage holder provide plenty of room to stow your stuff.

2. Optional rearview camera and radar object-detection system or rearview camera only displays the activity behind the machine on the LCD screen. Emits an audible alert for extra awareness in tight quarters and high-traffic areas.

3. Backlit touchpad in the SSM controls keyless start and 24 other machine functions, enabling the operator to activate boom-height kick-out, return-to-carry, and return-to-dig from the seat.
More power and control mean more productivity.

If you want maximum productivity, a 444K Loader should be on your jobsite. It’s not just ample horsepower that makes this machine such an impressive performer. Single-lever joystick or two-lever fingertip controls provide smooth effortless control. Excavator-style hydraulics sense the load and deliver the flow needed for smooth combined functions and fast work cycles. PowerShift™ torque-converter transmission employs smart shift technology to continuously evaluate speed and load conditions, and adjusts clutch-pack engagement to suit. You won’t find a smoother-shifting loader.

Boom-height kick-out and return-to-carry functions help speed production in repetitive loading applications. On Powerllel™-equipped model, the touchpad has two presets for added convenience when frequent attachment changeover is required.

Optional wheel-spin control boosts productivity by improving traction in troublesome material or underfoot conditions. Reduces tire wear, fuel costs, and operator fatigue, too.

Engine/hydraulic match maintains good boom and bucket power into and out of the pile. For big loads, even in wet or packed materials.

Hydraulic system provides only the power required, so there’s no wasted horsepower or fuel.

Responsive steering and full 80-deg. articulation increase maneuverability in tight quarters, for faster cycle times and fewer three-point turns.

Smart shift ensures that gear changes are smooth as silk, regardless of whether the bucket is empty or fully loaded.
1. Choose single-lever joystick or two-lever fingertip pilot-operated hydraulic controls. Joystick F-N-R selector provides convenient direction and full-range gear changes. Both include innovative Quick-Shift feature for push-button gear changes, one gear at a time.

2. Hinged panel tilts away for quick ground-level access to both the fuel and diesel exhaust fluid (DEF) tanks, making refills convenient and easy.

3. New adaptive clutch cutoff automatically provides more power to the hydraulic system, ensures smooth control at high engine rpms and low speeds, and allows for better machine handling in all terrain without the operator having to change settings.

More power and control mean more productivity. If you want maximum productivity, a 444K Loader should be on your jobsite. It's not just ample horsepower that makes this machine such an impressive performer. Single-lever joystick or two-lever fingertip controls provide smooth effortless control. Excavator-style hydraulics sense the load and deliver the flow needed for smooth combined functions and fast work cycles. Hydraulic system provides only the power required, so there's no wasted horsepower or fuel. Smart shift ensures that gear changes are smooth as silk, regardless of whether the bucket is empty or fully loaded.
Parallel lift that’s unparalleled.

The 444K Powerllel™ Loader delivers both powerful digging forces and parallel lift. Its innovative design allows load forces to work with, not against, the boom. For big breakout force, even in difficult digging. Impressive torque throughout the entire dump and rollback range enables this Powerllel loader to excel at a wide variety of material-handling tasks. But don’t just look for these John Deere advantages in the numbers on a spec sheet. The best way to fully appreciate them is on your jobsite. Whatever the task, whatever the load, you’ll discover parallel lift that’s without parallel.
Parallel lift that’s unparalleled.

The 444K Powerllel™ Loader delivers both powerful digging forces and parallel lift. Its innovative design allows load forces to work with, not against, the boom. For powerful breakout in tough digging.

Hi-Vis coupler fastens the attachment close to the machine to optimize stability with heavy loads.

Unique Y-link, low-mounted boom cylinders, and Hi-Vis coupler provide clear visibility to the work tool and throughout the lift arc.

Tire and axle options let you equip your Powerllel loader for material-handling work on a wide variety of terrain.

1. The 444K Powerllel Loader delivers outstanding breakout throughout the entire bucket and angle range.

2. John Deere Worksite Pro™ couplers increase versatility and make attachment switchover push-button easy. Hi-Vis coupler picks up a broad range of Deere and other attachments so you can do more with one machine.
Purpose-built for a wide variety of purposes.

The 444K Loader comes equipped with plenty of production-boosting features to help you handle almost anything you throw its way. But if yours isn’t just any application, we’ve got you covered with a wide variety of factory- or dealer-installed options. So you can equip your loader with exactly what you need to maximize your efforts and expand your opportunities. See your dealer for specific details on the available options best suited to your operation.

1. With optional ride control, the lift cylinders act as shock absorbers, cushioning bumps to allow this loader to navigate rough ground more quickly without losing the load. Auto-actuation travel speed is adjustable from 1.5 to 24.0 km/h (1.0 to 15.0 mph) in increments of 0.5 units.

2. Automatic differential lock engages as soon as a tire begins to slip. It’s ideal for inexperienced operators or applications requiring high traction, such as stockpiling silage, plowing snow, and handling pipe.

The 444K Loader comes equipped with plenty of production-boosting features to help you handle almost anything you throw its way. But if yours isn’t just any application, we’ve got you covered with a wide variety of factory- or dealer-installed options. So you can equip your loader with exactly what you need to maximize your efforts and expand your opportunities.

See your dealer for specific details on the available options best suited to your operation.

General-purpose or excavating buckets are available in pin-on or coupler configurations from 1.5–1.9 m³ (2.0–2.5 cu. yd.). Or opt for forks with 1.22- and 1.52-m (48 and 60 in.) tines, depending on model.

Embedded payload scale enables you to fill each truck to its legal limit, for maximum productivity. It’s available on Z-Bar and High-Lift models.

Full-tire front and rear fenders and flaps help keep the machine free of mud and debris.

Powered cab pre-cleaner is a smart option in high airborne-debris environments.

Optional corrosion package shields electrical components and connections to help prevent corrosive materials from short-circuiting productivity.

Mine Safety and Health Administration (MSHA)-compliant self-cleaning steps and convenient handrails provide right-side access to the skid-resistant platform for cleaning windows.

Heated mirrors prevent fog and ice from obstructing visibility and impacting productivity.

With optional ride control, the lift cylinders act as shock absorbers, cushioning bumps to allow this loader to navigate rough ground more quickly without losing the load. Auto-actuation travel speed is adjustable from 1.5 to 24.0 km/h (1.0 to 15.0 mph) in increments of 0.5 units.

Automatic differential lock engages as soon as a tire begins to slip. It’s ideal for inexperienced operators or applications requiring high traction, such as stockpiling silage, plowing snow, and handling pipe.
Nothing is built like a Deere.

It’s all about uptime. So we gave the 444K plenty of resources to help you succeed. This loader comes loaded with traditional John Deere durability features. Such as heavy-duty wet-sleeve diesels, Quad-Cool, and solid-state electrical system. Reinforced articulation joints with double-tapered roller bearings. Plus, boom and mainframe so tough they’re warranted for three years or 10,000 hours. When you know how its built, you’ll run this Deere.

Four steel plates support the loader tower, extending pin life and protecting the boom-cylinder hoses.

Electrical-distribution center employs highly reliable circuit-board technology and solid-state switches that eliminate numerous wiring harnesses, fuses, relays, and connectors. Sealed gold-pin electrical connectors resist corrosion, for superior long-term integrity.

Hydraulically driven fan runs only as needed for efficient cooling. Helps conserve precious fuel, too.

Hydraulic wet-disc brakes self-adjust for sure-footed stops in all underfoot conditions.

Standard starter protection limits cranking time and requires cool-down periods between attempts.

Standard features such as bypass-start protection, automatic park brake, convenient handholds, and slip-resistant steps help keep the operator out of harm’s way.

Auto-idle applies the brakes and automatically reduces engine speed to help conserve fuel after an operator-determined period of inactivity. Auto shutdown turns off the engine after extended idleness.
1. Sealed-switch module keeps out dust, moisture, and debris, and virtually never wears out. Proven marine-grade touchpad eliminates rocker switches and nearly 100 wires, and unsealed connections provide even longer life.

2. Quad-Cool places the radiator, air-conditioner condenser, intercooler, and hydraulic, transmission, and optional axle coolers in a unique boxed configuration that's isolated from engine heat. For increased efficiency and durability.

3. Optional programmable fan automatically reverses at predetermined intervals, ejecting debris from the radiator and cooler cores. Or set your own cleaning cycles through the monitor.
Stretches your dollars, not your service techs.

Controlling daily owning and operating costs shouldn’t be a reach — and it’s not on a 444K Loader. Same-side ground-level service points make quick work of the daily routine. Unique Quad-Cool system provides wide-open access to both sides of the coolers for easy cleanout. Extended service intervals let you work longer between changes. And because no maintenance beats low maintenance, standard self-adjusting serpentine engine belts and wet-disc brakes seldom, if ever, require attention. That’s just for starters. The list of 444K maintenance-minimizing features — and your owning and operating cost savings — goes on and on.

1. Vertical spin-on filters allow quick, no-spill changes. 500-, 2,000-, and 4,000-hour engine, transmission, and hydraulic oil-change intervals help reduce operating costs.

2. If something goes wrong, the easy-to-navigate LCD monitor displays diagnostic messages, and even offers possible solutions to help get you back up and running quickly.

4. Conveniently located, easy-to-read sight gauges and see-through reservoirs let you check transmission, hydraulic, coolant, and windshield washer fluid levels at a glance.

5. Lockable master electrical-disconnect switch, cab circuit breaker, and remote-start terminals are enclosed beneath the right-side step, for ground-level convenience.
1. Vertical spin-on filters allow quick, no-spill changes. 500-, 2,000-, and 4,000-hour engine, transmission, and hydraulic oil-change intervals help reduce operating costs.

2. If something goes wrong, the easy-to-navigate LCD monitor displays diagnostic messages, and even offers possible solutions to help get you back up and running quickly.

4. Conveniently located, easy-to-read sight gauges and see-through reservoirs let you check transmission, hydraulic, coolant, and windshield washer fluid levels at a glance.

5. Lockable master electricaldisconnect switch, cab circuit breaker, and remote-start terminals are enclosed beneath the right-side step, for ground-level convenience.

500-, 2,000-, and 4,000-hour engine, transmission, and hydraulic oil and filter service intervals mean more uptime.

3-mm (0.12 in.) side-shield perforations block most airborne debris. Unlike stacked coolers, Quad-Cool cores resist plugging and are easily accessible from either side, for quick cleanout.

All daily service points including fuel are conveniently grouped on the left side of the machine.

Greasing is less messy, with centralized lube banks providing easy access to difficult-to-reach zerks. Periodic lube and maintenance chart conveniently ensures that nothing gets overlooked.

Large-mouth fuel tank and nearby diesel exhaust fluid (DEF) reservoir make ground-level refilling fast and easy. Increased capacities let you work longer between fill-ups.

John Deere WorkSight™ is an exclusive suite of telematics solutions that increases uptime while lowering operating costs. At its heart, JDLink™ Ultimate machine monitoring provides real-time utilization data and alerts to help you maximize productivity and efficiency while minimizing downtime. Remote diagnostics enable your dealer to read codes, record performance data, and even update software without a trip to the jobsite.

Ultimate Uptime, featuring John Deere WorkSight, is a customizable support solution available exclusively from your Deere dealer. This flexible offering maximizes equipment availability with standard John Deere WorkSight capabilities that can help prevent future downtime and speed repairs when needed. In addition to the base John Deere WorkSight features, our dealers work with you to build an uptime package that meets the specific needs of your machine, fleet, project, and business, including customized maintenance and repair agreements, onsite parts availability, extended warranties, fluid sampling, response-time guarantees, and more.

### Cooling

- **Fan Drive**: Hydraulically driven, proportionally controlled, fan aft of coolers
- **Electrical**
  - **System**: 24 volt with 100-amp (130-amp optional) alternator
  - **Batteries (2 – 12 volt)**: 950 CCA (each)
  - **Electrical System**: 24 volt with 80-amp (100-amp optional) alternator
  - **Fan Drive**: Hydraulically driven, proportionally controlled, fan aft of coolers

### Transmission System

- **Type**: Countershaft-type PowerShift™
- **Torque Converter**: Single stage, single phase
- **Shift Control**: Electronically modulated, adaptive, load and speed dependent
- **Operator Interface**: Steering-column or joystick-mounted F-N-R and gear-select lever; kick-down button on hydraulic lever
- **Shift Modes**: Manual/auto (1st–D or 2nd–D); Quick-Shift button with 2 selectable modes: kick-down or kick-up/down; and adaptive clutch cutoff
- **Maximum Travel Speeds (with 17.5 R 25 tires)**
  - **Forward**: 7.3 km/h (4.5 mph)
  - **Reverse**: 7.6 km/h (4.7 mph)
  - **Range 2**: 12.1 km/h (7.5 mph)
  - **Reverse**: 13.0 km/h (8.1 mph)
  - **Range 3**: 23.1 km/h (14.4 mph)
  - **Reverse**: 24.2 km/h (15.0 mph)
  - **Range 4**: 36.0 km/h (22.4 mph)
- **Axles/Brakes**
  - **Final Drives**: Heavy-duty midboard planetary
  - **Differentials**: Hydrostatic locking front with conventional rear – standard; dual locking front and rear – optional
  - **Rear Axle Oscillation, Stop to Stop (with 17.5 R 25 tires)**: 24 deg. (12 deg. each direction)
  - **Service Brakes (conform to ISO 3450)**: Outboard, forced oil cooled, multi disc
  - **Parking Brakes (conform to ISO 3450)**: Automatic spring applied, hydraulically released, driveline mounted, sealed wet multi disc

### Serviceability

- **Reif Capacities**
  - **Refill Capacities**: EPA FT4/EU Stage IV
  - **Fuel Tank (with lockable cap)**: 220 L (60 gal.)
  - **Cooling System**: 19 L (20 qt.)
  - **Diesel Exhaust Fluid (DEF)**: 19 L (20 qt.)
  - **Engine Oil with Vertical Spin-On Filter**: 14.5 L (15.3 qt.)
  - **Transmission Reservoir with Vertical Filter**: 18.5 L (19.5 qt.)
  - **Axle Oil (front and rear, each)**: 22 L (23 qt.)
  - **Hydraulic Reservoir and Filter**: 118.7 L (31.4 gal.)
  - **Park Brake Oil (wet disc)**: 0.3 L (10 oz.)

### Hydraulic System/Steering

- **Pump (loader and steering)**: Variable-displacement, axial-piston pump; closed-center, pressure-compensating system
- **Maximum Rated Flow at 6895 kPa (1,000 psi) and 2,350 rpm**: 140 L/m (37 gpm)
- **System Relief Pressure (loader and steering)**: 24 821 kPa (3,600 psi)
- **Loader Controls**: 2-function valve; joystick control or fingertip controls; hydraulic-function enable/disable; optional 3rd- and 4th-function valve with auxiliary lever
- **Steering (conforms to ISO 5010)**: Steering-column-mounted, twist-grip shift lever; Quick-Shift button on hydraulic lever
- **Type**: Power, fully hydraulic
- **Articulation Angle**: 80-deg. arc (40 deg. each direction)
- **Turning Radius (measured to centerline of outside tire)**: 4.74 m (15 ft. 7 in.)
Hydraulic System/Steering (continued) 444K Z-BAR / HIGH-LIFT / POWERLLEL

| Hydraulic Cycle Times | Z-Bar / High-Lift | Powerlil
|-----------------------|-------------------|-----------
| Raise                 | 5.9 sec.          | 5.3 sec.  |

| Capacity, Heaped | 1.9 m³ (2.5 cu. yd.) | 1.9 m³ (2.5 cu. yd.) |
| Capacity, Struck | 1.6 m³ (2.1 cu. yd.) | 1.6 m³ (2.1 cu. yd.) |
| Bucket Weight with Bolt-On Cutting Edge | 888 kg (1,958 lb.) | 888 kg (1,958 lb.) |
| Bucket Width | 2.54 m (8 ft. 4 in.) | 2.54 m (8 ft. 4 in.) |
| Breakout Force | 7960 kg (17,549 lb.) | 7960 kg (17,549 lb.) |
| Tipping Load, Straight, No Tire Deflection | 9263 kg (20,421 lb.) | 7755 kg (17,538 lb.) |
| Tipping Load, Straight, with Tire Deflection | 8736 kg (19,260 lb.) | 7545 kg (16,634 lb.) |
| Tipping Load, 40-deg. Full Turn, No Tire Deflection | 8080 kg (17,813 lb.) | 6914 kg (15,243 lb.) |
| Tipping Load, 40-deg. Full Turn, with Tire Deflection | 7437 kg (16,396 lb.) | 6399 kg (14,107 lb.) |
| Rated Operating Load, 50% Full-Turn Tipping Load, No Tire Deflection (conforms to ISO 14397-1)* | 4040 kg (8,907 lb.) | 3457 kg (7,621 lb.) |
| Rated Operating Load, 50% Full-Turn Tipping Load, with Tire Deflection (conforms to ISO 14397-1)* | 3718 kg (8,197 lb.) | 3199 kg (7,053 lb.) |
| Operating Weight | 11,350 kg (25,022 lb.) | 11,538 kg (25,360 lb.) |

Loader operating information is based on machine with identified linkage and standard equipment, PowerTech PSS 4045 (EPA Final Tier 4/EU Stage IV) engine, ROPS cab, rear cast bumper/counterweight, transmission side-frame guards, bottom guards, standard tires, full fuel tank, and 79-kg (175 lb.) operator. This information is affected by changes in tires, ballast, and different attachments.

*Rated operating capacity based on Deere attachments only.

Adjustments to Operating Weights and Tipping Loads with Buckets

Adjustments to operating weights, tipping loads, and tires are based on Z-Bar machine with pin-on 1.9-m³ (2.5 cu. yd.) general-purpose bucket with bolt-on cutting edge, ROPS cab, rear cast bumper/counterweight, transmission side-frame guards, bottom guards, standard tires, full fuel tank, and 79-kg (175 lb.) operator*. 

Add (+) or deduct (–) kg (lb.) as indicated for loaders with 3-piece rims and Tipping Load, 40-deg. Full Turn

### Additional equipment

#### Powertrain
- Wet-sleeve cylinder liners
- Automatic glow plugs for cold start
- Programmable auto-idle and auto shutdown
- Selected idle adjustment from 900–1,250 rpm
- Starter protection
- Automatic engine cool-down timer
- Automatic derating for exceeded system temperatures
- Serpentine drive belt for automatic tensioner
- Electric fuel-pumping pump
- Dual-stage fuel filter and water separator
- 500-hour vertical spin-on oil filter
- Automatic engine starting aid (recommended for cold starts below –12 deg. C [10 deg. F])
- Engine-block heater (recommended for cold starts below –23 deg. C [–10 deg. F])
- Centrifugal engine air pre-cleaner

#### Engine
- Programmable maximum high gear
- Clutch calibration engaged from monitor
- 2,000-hour vertical spin-on oil filter
- Transmission fill tube and sight gauge
- Transmission diagnostic ports
- 4-speed transmission with non-lockup torque converter
- Front locking differential
- Rear locking differential
- Automatic differential lock
- Axle oil temperature sensing
- Wheel-spin control

#### Quad-Cool™ Cooling System
- Heavy-duty, trash-resistant radiator and high-ambient cooling package
- 2-side access to all coolers
- Isolated from engine compartment
- Engine radiator
- Integral engine oil cooler
- Hydraulic oil cooler (oil to air)
- Transmission oil cooler (oil to air)
- Charge air cooler (air to air)
- Fuel cooler
- Coolant recovery tank
- Antifreeze, –37 deg. C (–34 deg. F)
- Cool-on-demand, hydraulically driven, swing-out fan
- Enclosed fan safety guard
- Automatic reversing fan drive
- Axle and service-brake coolers

#### 444K Hydraulics
- Automatic return-to-dig bucket positioner
- In-cab adjustable automatic return-to-dig bucket positioner (PowerFlow™ only)
- In-cab adjustable automatic boom-height kickout/return to carry
- Reservoir with sight gauge and fill strainer
- Hydraulic diagnostic ports
- 4,000-hour in-tank filter
- 2 function — joystick with F-N-R
- 2 function — joystick with steering column F-N-R
- 2 function — 2-lever fingertip controls and steering column F-N-R
- 3 function — joystick with F-N-R and 3rd-function auxiliary lever
- 3 function — joystick with steering column F-N-R and 3rd-function auxiliary lever
- 3 function — 3-lever fingertip controls and steering column F-N-R
- 4 function — 4-lever fingertip controls and steering column F-N-R
- Ride control, automatic with monitor-adjustable speed settings
- Hydraulic control system for quick-coupler locking pins
- Hydraul™ XR cold-temperature hydraulic fluid recommended below –25 deg. C. (–13 deg. F)

#### Steering Systems
- Conventional steering wheel with spinner knob
- Secondary steering

#### Electrical
- Solid-state electrical power-distribution system
- Lockable master electrical-disconnect switch
- Battery-terminal safety covers
- By-pass start safety cover at starter
- Remote jump-start access in battery box
- Pre-wired for beacon/strobe light
- Lights: Halogen driving lights with guards (2) / Front (4), rear cab (2), and rear grille (2) work lights / Incandescent front turn signals and flashers / LED stop and taillights
- Heavy-duty front LED turn signal and marker lights
- Premium LED light package (all exterior lights are heavy-duty LED)
- Programmable courtesy lights
- Horn, electric
- Reverse warning alarm
- Multi-function/multi-language LCD color monitor includes: Digital instruments — Analog display (hydraulic oil temperature, engine coolant temperature, transmission oil temperature, and engine oil pressure) / Digital display (engine rpm, transmission gear/direction indicator, hour meter, fuel level, diesel exhaust fluid (DEF) level, speedometer, odometer, and average fuel consumption)
- Integrated cycle counter with 5 categories

1. Available only on EPA Final Tier 4 (FT4)/EU Stage IV engines.
2. Available only on EPA Tier 3/EU Stage IIIA engines.
Additional equipment (continued)

**Key:** ● Standard ▲ Optional or special See your John Deere dealer for further information.

### 444K Electrical (continued)
- Indicator lights: Standard and selected options / Amber caution and red stop
- Operator-warning messages
- Built-in diagnostics: Diagnostic-code details / Sensor values / Calibrations / Individual circuit tester
- Electrical corrosion-prevention package
- AM/FM/Weather-Band (WB) radio with remote auxiliary port
- Premium AM/FM/WB/XM Satellite Radio† ready radio with Bluetooth®, remote auxiliary port, and remote USB port
- 24- to 12-volt, 8-amp converter
- 24- to 12-volt, 15- or 30-amp converter and power port

**Operator’s Station**
- Canopy (ROPS/FOPS Level 1, isolation mounted)
- Canopy rear window
- Quiet Cab with heater (ROPS/FOPS Level 1, isolation mounted)
- Quiet Cab with air conditioning/heater (ROPS/FOPS Level 1, isolation mounted)
- Keyless start with multiple security modes
- Sealed-switch module with function indicators
- Seat with backlight extension, deep foam, vinyl cover, and adjustable air suspension
- Seat with backrest extension, deep foam, fabric cover, and adjustable air suspension
- Premium seat with high-wide back and headrest extension, heated, leather/fabric cover, and adjustable air suspension
- Hydraulic controls integrated to seat
- High-visibility, bright-orange seat belt, 76 mm (3 in.), with retractor
- Cup holders (2)
- Lunch-box/cooler holder
- Dome and reading light (included with Quiet Cab)
- 12-volt power port
- Rubber floor mat
- Tilt steering column
- Operator’s manual storage compartment
- Outside (2) and inside (1) rearview mirrors
- Large heated outside mirrors
- Left-side operator-station access
- Slip-resistant steps and ergonomic handholds
- Sun visor (included with Quiet Cab)
- Radio ready [Quiet Cab only]
- Front and rear intermittent windshield wipers and washers (included with Quiet Cab)
- Powered cab air pre-cleaner
- Beacon bracket (single or dual available)
- Rearview camera
- Rear camera and radar object-detection system
- LOADRITE™ L2180™ Payload Scale Ready
- LOADRITE L2180 Payload Scale
- Embedded payload scale
- Fire extinguisher

### 444K Loader Linkage
- Z-Bar loader linkage
- High-Lift Z-Bar loader linkage
- Powerllel linkage for visibility and parallel-lift

### Buckets and Attachments
- Full line of Deere pin-on buckets
- Worksite Pro™ hydraulic coupler which accepts JRB-pattern attachments
- Hi-Vis hydraulic coupler which accepts Euro-pattern attachments (Volvo)
- Full line of Deere hook-on buckets and forks
- Bolt-on fork frame guard

### Overall Vehicle
- JDLink™ Ultimate wireless communication system (available in specific countries; see your dealer for details)
- NeverGrease™ steering-cylinder joints
- Front and rear tie-downs
- Rear cast bumper/counterweight with rear hitch and locking pin
- Articulation locking bar
- Loader boom service locking bar
- 40-deg. steering articulation to each side with rubber-cushion stops on frame
- Vandal protection with lockable engine enclosures, right counter-weight storage, and filler access for radiator/fuel/DEF/hydraulic transmission
- Left-side service steps and handholds
- Right-side service steps and handrails
- Left-side close-mounted steps
- Storage compartment
- Fuel-tank fill strainer
- Heavy-duty fuel-tank guard
- DEF® and ground-level fueling
- Same-side ground-level daily servicing
- 17.5R25 tires on 3-piece rims
- 20.5R25 tires on 3-piece rims
- Level 1 sound package¹
- Level 2 sound package
- Environmental drains and sample ports
- Fenders, Front
- Fenders, Full-coverage, front
- Fenders, Full-coverage, front and rear
- Less wheels and tires with 8-deg. axle stops
- Rims less tires
- Transmission side-frame guards
- Bottom guards, front frame and transmission
- Lift eyes
- License-plate bracket and light

¹Available only on EPA Final Tier 4 (FT4)/EU Stage IV engines.
²Standard only on FT4/Stage IV engines.

Net engine power is with standard equipment including air cleaner, exhaust system, alternator, and cooling fan at test conditions per ISO 9249. No derating is required up to 3050-m (10,000 ft) altitude. Specifications and designs subject to change without notice. Specifications with the exception of bucket capacity are in accordance with all applicable ISO standards. Except where otherwise noted, these specifications are based on a unit with applicable linkage and standard equipment, ROPS cab, rear cast bumper/counterweight, transmission side-frame guards, bottom guards, standard tires, full fuel tank, and 79-kg (175 lb) operator.
