ROLLED-SIDE SUPER HI-LITE AG TRAILER

TKAHSR

TRAIL KING
WE'VE GOT YOUR BACK.

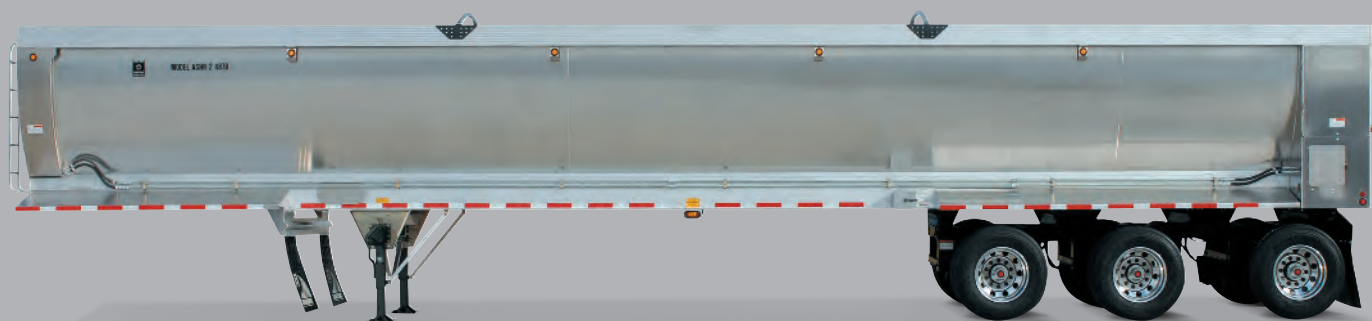

Segmented Belt Model

CLEAN. EFFICIENT. DESIGNED TO DELIVER.

Featuring an aerodynamic design, the Rolled-Side Aluminum Super Hi-Lite Agriculture Trailer is one of Trail King's best products for moving agricultural commodities. Achieve reduced cross-contamination between loads with our smooth continuous belt model, paired with raised belt flanges and a spring-loaded belt scraper.

Choose the lightweight segmented belt model and you will still experience the fast and clean horizontal rear discharge enabled by the full height High Molecular Weight (HMW) plastic wall liner available on both models. The ASHR models also offer reliable and low maintenance performance with either the pintle chain or heavy-duty roller chain system and superior tailgate seal against the trailer body.
