

UltraLite Bottom Dump

UltraLite™

Series Bottom Dump

*Designed for On-Highway Use
with Maximum Payload*

UltraLite™

SERIES

Ultra-Lite™

Bottom Dump

Full Oscillating Fifth Wheel Plate
features a spherical, chrome-bushed design that reduces wear and provides longer service life than a shaft and bushing design.

Lightweight Crossbraces
tie the frame together in a way that minimizes the flexing and twisting that can cause cracking in critical stress areas.

Wooden Extensions
replaceable, reinforced wooden extensions provide protection to hopper edges and added capacity. (optional)

Ultra-Lite™
Trail King has designed the Ultra-Lite™

Bottom Dump, only 9,900 lbs. and large capacity. Extreme weight reduction is achieved through the use of 100,000/175,000 psi Domex/Docal high strength steel components and re-engineered structure. The Ultra-Lite Bottom Dump... Ultra-Lite. Ultra-Efficient.

And you can get fast approval, and great rates with TKExpress financing from Trail King.

Oil-Impregnated Bronze Bushings
greaseable gate pivot pins ensure smooth operation, long life and simplified replacement.

One-Piece Unitized Design
175,000 psi upper hopper and 100,000 psi frame provides optimum strength and maximum weight savings.

Trailer

Large Air Reservoir,
with air system oiler, means longer
operating time and better control.

Full-Width Aluminum Fenders,
both front and rear, are sloped to
shed material more effectively.

Other Standard
Features Include:

Pin-Style Landing Legs

Windrow Deflector

Large 12' Gate
and 60" x 106" hopper opening,
combined with nearly vertical hopper
walls, delivers complete dumping of
even the stickiest materials.

**Chrome-Bushed Spherical
Bearings**
on the ends of the gate equalizer
arms reduce wear and ensure long,
trouble-free service life.

Remote Variable Control

Bolt-On Push Block

SERIES

Standard Equipment

- 16 - 1/2" air brakes.
- 8.25 x 22.5 steel disc wheels (hub piloted).
- 11R 22.5 radial tires.
- Dura-lite hubs/centrifuge drums.
- Multi-leaf spring suspension.
- 18" kingpin setting.
- Oscillating kingpin plate.
- 100,000/175,000 psi high yield steel unitized frame construction.
- 102" wide.
- Telescoping pin-type park stands.
- Rubber-mounted sealed beam lights and sealed harness system.
- Mid-turn signal/clearance lights.
- Electrical system per DOT regulations.
- 7-pole electrical socket.
- Red and white conspicuity markings.
- 8" composite cylinders.
- Variable flow gate control.
- Bolt-on push block/bumper.

Optional Features

- 20' to 43' overall length.
- 6-pole electrical socket.
- 3rd tail light package.
- Air-ride suspension.
- Sloped cover front and rear.
- Pup trailers available.
- Single and tandem dollies.
- Tire and wheel options.
- Side boards/tarp systems.
