TRAIL KING
STEEL SIDE DUMP

STANDARD FEATURES

Two-Piece Rolled Tub
The abrasion-resistant tub is constructed of two rolled pieces of Hardox 450. The round bottom delivers fast, clean dumping of the load away from the trailer, with no "carry back." The fewer weld seams associated with this design minimize the likelihood of cracking. Best of all, this tub design results in weight savings of several hundred pounds.

New Formed Top Rail and Exterior Tub Reinforcement
Large formed top rail resists twisting and flexing of tub. This new design provides 2x the flex resistance of previous models. (Note: configured for electric or manual tarp systems available as options.)

Twin 5" Cylinders
Twin, 5" bore, single-stage cylinders offer maximum stability when dumping. The single-stage cylinders are very low-maintenance. Their two-pin mounting makes them easily removable if they need to be repaired or replaced.

One-Piece I-Beam Construction
Trail King I-beams are constructed of one-piece web and flange material. The result is a mainframe that is stronger, with less twisting and load "bounce"... all of which reduces opportunity for the frame to develop cracks.

Shaped Cross Members
All cross members are full depth. Cross members in the main frame area are mounted at an angle. This exclusive Trail King design helps distribute stress over a larger area. The result is the flexible strength necessary to handle your toughest hauling requirements.

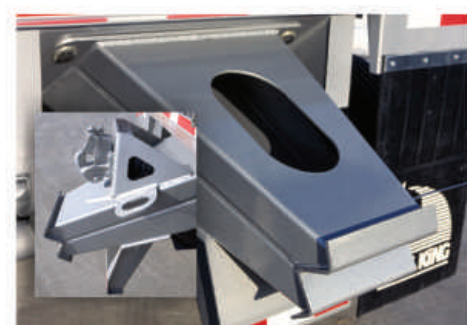

New Flexible Fenders
Rugged, flexible, impact-absorbent plastic fenders (front and rear) shed falling debris to protect both the trailer and the wheels. Bolt-on fender support brackets.

Control Kit
Trail King Side Dump trailers come standard with a trailer-mounted cab control kit.

Lock-Down Retainers
The lock-down retainers feature an extended alignment guide so the pivot bushing returns to sit perfectly in the pivot saddle every time. The larger bearing surfaces reduce wear and provide full contact with the pivot bar for a stronger, more secure lock down. All pivot points are mounted on full-width I-beam cross members for the most load-bearing strength possible.

Bolt-On Push Block
(Standard) Also available with pintle hitch.

DESIGNED TO PERFORM... ENGINEERED TO LAST.

The two-piece rolled design of Trail King's Steel Side Dump (SSD) tub delivers fast, clean dumping of your payload away from the trailer, with no "carry back." What's more, the formed top rail and exterior tub reinforcement helps the tub resist twisting and flexing. Main frame I-beams constructed of one-piece web and flange material, combined with full-depth angle-mounted cross members, result in a trailer with the rugged strength and durability to stand up to your toughest loading, hauling, and dumping demands for years to come.

The Trail King SSD... destined to be the best side dump you'll ever own.

PEOPLE. PRODUCT. PERFORMANCE.

COMPREHENSIVE SUPPORT. UNMATCHED SERVICE.

Whether you own a premium Trail King trailer or you are looking to own one, you can still have access to our comprehensive PEAK PERFORMANCE™ Aftermarket Programs:

PEAK PERFORMANCE PARTS

Instantly access over 10,000 on-hand parts and a variety of online tools. All Trail King Certified dealers, fleets, and service facilities can place same-day shipping orders for convenient and efficient ordering. Customers looking for more information can contact a local Trail King dealer or submit direct inquiries to trailkingpartssupport@trailking.com.

PEAK PERFORMANCE REFURB

Extend the life of your trailer and increase future resale value by restoring it to near-peak performance through Trail King's factory refurbishment program. Customers can request a free estimate for comprehensive refurbishments or specified repairs by visiting www.tkpeakperformance.com. Our expert technicians specialize in Trail King equipment, but we also welcome other trailer brands.

PEAK PERFORMANCE FINANCE

Competitive rates and flexible terms designed to make a Trail King purchase affordable, convenient, and secure. Trail King's innovative payment program operates with an understanding of the changing demands a customer's business faces. Our full suite of financing structures, including Loans, Finance Leases, and TRAC Leases, makes it easier than ever before to own a Trail King trailer.

Trail King is the leading manufacturer of open deck and materials hauling trailers for the asphalt paving, construction, commercial hauling, agriculture, and specialized transport industries. With a network of almost 400 dealer locations across the U.S. and Canada, Trail King is there when you need us. Our dedicated teams of customer service professionals are available 24/7 to serve you.

We know that your bottom line is important to you and it's our commitment to make sure you achieve the lowest cost of ownership with the highest quality trailers offered in the market.

A Trail King trailer won't just get the job done – it will get the job done *right*.
