**BENEFITS**

- The 6600 is an aggressive, productive grinder from the leading manufacturer of industrial-grade grinding equipment.
- Process clearing debris, yard waste, storm debris and other mixed woody feedstocks into saleable products.
- Proven drive line protection system protects against catastrophic damage from contaminants.
- Like all Morbark equipment, the 6600 Wood Hog is a long-lasting, durable machine backed by a world-class parts and service support team.

**Morbark Integrated Control Systems (MICS)**
Automatically adjusts feed rates and monitors pressures and feed wheel position to maximize production and engine efficiency.

**Hammermill**
Laser-cut upturn rotor, factory balanced with forged hammers, offers unsurpassed durability and smooth operation.

**Feed System**
Internal planetary drive with no chains and sprockets means lower maintenance, more torque and better durability.

**Externally Adjustable Break-Away Torque Limiter Optional**
Flexible, easily adjustable torque limiter helps protect the driveline and hammermill for damage.

**SPECIFICATIONS**

**General**
- Length (transport) .................. 44’11”
- Length (operating) ................. 68’10”
- Height ................................ 13’6”
- Height (operating) ................. 19’3”
- Width .................................. 11’10”
- Gross weight ......................... 91,440 lbs.
- Axle weight ......................... 59,400 lbs.
- Tongue weight ....................... 32,000 lbs.
- Engine ................................. CAT
- Horsepower .......................... 875 HP to 1200 HP
- Fuel capacity (tank) ............... 430 gallons
- Hydraulic oil capacity ............. 238 gallons
- Brakes ................................. air
- Towing arrangement ............... fifth wheel
- Dust suppression system
- Hydraulically operated debris containment door
- Remote control with tethered back-up system

**Infeed System**
- Infeed opening 66” x 50”
- Variable speed infeed system consists of one 36” diameter top compression feed roll with internal drive and a 17’6” long x 64” wide live floor equipped with five strands of WDH-120 chain in a staggered configuration.

**Hammermill and Grates**
- 42” x 66 ½” Hammermill system constructed of heavy-duty 28” diameter rotor, 18 1 ¾” thick two-piece laser-cut rotor plates to ensure precision and enforce steel strength. The plates are keyed on a 9” diameter shaft with 5 ¾” bearings and eight 2 ½” hammer retaining rods. Hammermill pattern has 18 2 ¼” balanced forged steel hammers, 18 3 ¾” wide double-edged replaceable hammerhead inserts and 18 forged rakers.

**Discharge System**
- Discharge system consists of a hydraulically driven, horizontal 48” wide x 19’ long aggregate belly belt conveyor discharging onto a 40” x 31” stacking conveyor with hydraulic fold for transport.

**Options**
- Electric power
- Automatic reversing fan system
- Externally adjustable break-away torque limiter
- Variety of Hammermill patterns
- 14-knife chipper drum assembly
- Variety of grates sizes available
- Conveyor with 22 ½° swing each way
- Magnetized end pulley with collecting slide tray for ferrous metal removal
- 11 HP air compressor with lockable enclosure
- Quad-axle chassis
- Hydraulic rod puller
