JOHN DEERE

# Bale Spears

ROUND | SQUARE

## Specifications

- Tapered design of the round bale spear reduces drag resistance for easier insertion or removal. Multiple-point support provides extra bale stability.
- Low-profile design provides unrestricted visibility to the spear and tine tips.
- Round bale main spear and square bale tines are retained with bolts, making them easier to replace.
- Quick-Tatch™ mounting provides quick and easy hookup and removal.
- Like all Worksite Pro™ attachments, bale spears are optimized to work with John Deere D/E-Series Skid Steers and Compact Track Loaders as well as with J/K-Series Compact Wheel Loaders, and are compatible with many competitive models. (Note: Some compact wheel loaders may require skid steer interface coupler. See your local John Deere skid steer dealer for details.)

	ROUND BALE SPEAR	SQUARE BALE SPEAR
<b>Weight</b>	87.82 kg (193 lb.)	171 kg (375 lb.)
<b>Height</b>	485 mm (19 in.)	561 mm (22 in.)
